Experience

Web Developer
Personal Projects
I have done a few of my personal projects and looking forward to do a few more in future. Few of them have really good market and can make its place in industry.

Web Developer
Eskon Engineers
Jan 2020 - Jan 2020 (1 month)
They needed a static webpage for their company. Eskon Engineers is an architectural firm based in Bihar. I have developed their website according to them in a week. There was a communication problem with them. which extended the time of completion.
